Cornell University signed a long-term lease to expand the occupancy of its Weill Cornell Medical College at 156 William St. by 55,000 s/f, bringing its total occupancy at the building to 85,000 s/f. The transaction includes 41,000 s/f of office space and 14,000 s/f of retail space, with the retail portion housing a medical imaging center. The 12-story 156 William St. was designed by Emery Roth & Sons and constructed in 1955. Macklowe and LaSalle Investment Management bought the 250,000 s/f office property in 2013. Ownership later divided 156 William St. into two condo units, selling one 57,000 s/f unit to the Blue School and retaining ownership of the other.
